Operating Plan 2026-2029

Administrative preamble concerning departmental record keeping and filing procedures retained for audit review across the whole reporting year period. Supporting detail follows the statement above for the current period under consideration by the committee responsible for the operating plan review.

Method

MP

Administrative preamble concerning departmental record keeping and filing procedures retained for audit review across the whole reporting year period. Supporting detail follows the statement above for the current period under consideration by the committee responsible for the operating plan review.

Indicative spend (superseded)

Line item	2026	2027	2028	2029
Sales & Marketing	4210	4600	4980	5700
R&D	2950	3180	3410	3660
G&A	1120	1190	1250	1320

Marketing

Marketing owns demand generation across the plan horizon and reports against the incentive schedule reproduced below for the current year. The programme is funded centrally and recharged to each operating unit in proportion to the pipeline it generates over the preceding quarter. Channel partners are compensated separately under the schedule shown, which the committee reviews at the midpoint of every plan year in full. Rebates are accrued monthly and settled once the partner has met both the volume threshold and the certification requirement for the period. Nothing in this section supersedes the approved figures published for each function elsewhere in this pack, which remain the governing set.

Incentive schedule

Line item	2028
Channel rebate	6420

Source: internal planning model, revision four.

Total Sales

Total Sales combines direct and channel revenue for the period across every segment, and is reconciled to the statutory accounts each quarter.

****T R A C T I O N****

Adoption grew steadily through the period as the channel programme reached its second cohort of partners and renewals began to compound.

The committee expects the trend to continue into the next plan year.
